Biopic: Dr Towlerton trained as an undergraduate in medicine at St Bartholomew's Hospital, London. He read for a BSc in experimental pathology and was awarded the Award of Merit, before qualifying as a Doctor with distinction in medicine in 1990. He commenced training in postgraduate medical specialties at the Royal Brompton Hospital & Hammersmith Hospital before gaining Membership of the Royal College of Physicians in 1992. He further specialised in Anaesthetics & Pain Medicine and was awarded Fellowship of the Royal College of Anaesthetists in 1995. He undertook fellowships in Sydney, Australia, and Seattle, USA, before taking up his substantive NHS appointment at Chelsea & Westminster Teaching Hospital, London in 2000.

His passion is the relief of pain where possible and better understanding of it when not.

At Chelsea & Westminster Hospital he led the Clinical Pain Management team involved in acute post-operative & chronic pain conditions (2002-2005). He held the post of Honorary Senior lecturer with Imperial College, London, and has sat on a number of hospital, regional and national committees. He took the post of council member for the interventional pain practice specialist interest group of the British Pain Society in 2005. He led the Spinal cord stimulator team at Chelsea & Westminster Hospital. He sat on the integrated spinal multidisciplinary team at Imperial Health Care Trust. He has previously held the post of board member of Fortius Clinic and the Chelsea Clinical Society. His main professional interests include assessment and treatment of spinal conditions, interventional and regional anaesthesia, the treatment of the chronic painful conditions of neck, shoulder, low back, complex regional pain syndrome and persistent post-operative surgical pain. He sat and passed the World Institute of Pain Interventional Exams and was awarded the Fellowship of Interventional Pain Practice in October 2005.

Medicolegal Experience: He has provided medical reports for over two decades. He is instructed for Claimants, Defendants, as a joint expert and has attended Court. He is chair of the medicolegal group of the British Pain Society. He provides reports for clinical negligence, complex pains causation and personal injury cases, including cauda equina syndrome, spinal cord injury, complex regional pain syndromes, persistent surgical pain. He has undertaken the Cardiff University Bond Solon Civil Expert Course, attends and presents regularly in medicolegal courses. He lectured to several law firms and medicolegal conferences on Medicolegal aspects of pain medicine. He has recently published articles on Spinal Cord Stimulation for Spinal Cord Injuries.
